## ELATED WOODLANDERS

**They Rode Through the Big Vineyards Yesterday.**

## SEENADAY AT THE COURTHOUSE

**The Thriving Colonies Will Be Inspected To-Day by the Live Men of Yolo.**

From the body of Thursday. The Woodland excursionists are delighted with their trip to Fresno, and are especially pleased not only with the thriving appearance of the city, but with the prosperity and enterprise shown by the colonists in the surrounding country.

"When I looked upon your beautiful brick buildings, built in the modern style of architecture, it made me ashamed to think of going back to Woodland," said one of them to a *Republican* reporter yesterday.

**THE SILURIAN CURSE.**

"We have a lot of Silurius up there in Yolo county who own large tracts of land and will neither sell nor improve. In Woodland the Silurian element has prevented public improvements, but the men of capital, energy and enterprise have determined to go ahead and make Woodland look like a live town. We came to Fresno to see what your live, go-ahead people had done in the way of street improvements and so forth. I am charmed with the beauty of appearance, the cleanliness and the nobleness of your bituminous pavements. I think it is one of the finest and cheapest pavements in the world for wear and looks."

**JUDGE RUGGLES ON GRAVEL.**

Judge Ruggles is one of the most enthusiastic of the party. He gave a great description of the gravel-paved streets of Woodland which were very high crown in the middle, and would slope very abruptly down to the wooden gutters that seem to be a constant menace to limb and life. He paid his respects to the Silurians in vigorous terms, and highly complimented the enterprise of W. R. Ellin, the live editor of the *Woodland Mail*, for working up the excursion in spite of the efforts of the Silurians.

**THE REPUBLICAN'S** enterprise in publishing reliable and artistic portraits of the visitors was commended on all sides.

**WHAT THEY DID YESTERDAY.**

A large delegation of the visitors from Woodland yesterday visited the Y. M. C. A. hall and gymnasium. They admired the completeness of the gymnasium in all its details.

The excursionists were taken through the parks, roads, and their astonishment was greatly expressed at the magnificent country they had seen in such a prairie city. They will ride through the colonies to-day, and will witness the most important factor that has made up the prosperity of Fresno county.

The Fresno brass band gave an open-air concert last evening in honor of the Court-house steps in honor of the Woodland excursionists. The concert was the entertainment of City Trustee Cole, who raised a subscription of less than an hour for that purpose.

The following was the program: March, Black Hussars, Barrett, Medley Overture, Jules de S. Broder; Romance for Trombone Solo, performed by C. W. Goudy; Suite Valses, Petiette; Medley of Popular Songs, Brer; Galop, Tin Tin Petiette; Musical Director, D. C. Smith. The program was carried out in a very acceptable manner, the trombone solo by Mr. Goudy being the most enjoyable feature.

**"GLORY HERE, GLORY THERE."**

**There Is Always Room for One More, and That One Comes.**

There is always room for one more on a stage, and the Fresno Salvation Army stage is no exception to the rule. The other seats were also all occupied last evening—and there were no Woodland people present either.

The catchy songs and unusual methods employed seem to first interest, then attract, and finally convince.

Cadet Hyde supplemented the testimony of a colored man by stating that the Lord was able to save a man or any creature.

A new convert preached a short, but effective sermon, by stating that "there was nothing wrong with salvation."

Another announced that she was saved several days ago, and had been saved ever since.

Cadet Hyde said she was not all disengaged by the uncompromising remarks which were so frequently made about the Salvation Army. She then persuaded the audience to join in singing very heartily one of her favorite songs.

Robinson, the blacksmith, said that salvation was a sure cure for the whisky and tobacco habit, as well as for other evils.

A young gentleman, who pretended his general remarks by the statement that he hadn't time to talk, delivered quite a sermon, in which, however, there were some good points.

The Swedish Hallelujah Lass was earnest as ever, and shouted out for salvation, to the invitation for recruits, one sought happiness at the morrow's bench and found it.

Services will be held at the hall this evening as usual.

**CATHOLIC LADIES' AID SOCIETY.**

The Catholic Ladies' Aid Society held a business meeting in the parlor of the Native Sons last Tuesday evening, and the following officers were installed: of Grand President Mrs. A. McDonald of Oakland; President Mrs. C. C. Hoxie; Senior Vice-President Mrs. J. A. Poin; Junior Vice-President Mrs. J. W. Williams; Treasurer Mrs. L. W. Wilson; Corresponding Secretary, Secretary Miss Jessie A. Trumbull; Financial Secretary Miss Alice Fleming Marshall; Miss A. Darling; Guard, Miss G. Wilson; Executive Committee, Mesdames Hoxie, Gordon, Wilson.

After the ceremony a reception was given the Grand President, followed by an interesting program of musical exercises.

**A BIBLE INSTITUTE.**

An important meeting of Christians is to be held in the Presbyterian Church next week, beginning on Monday evening, and continuing for four days. Two

## SOCIETY NOTES.

### Doings of Leading Fashionables of Fresno.

hours of each forenoon will be devoted to study and discussion, and in the evening mass meetings will be held. A large number of ministers, evangelists and Christian workers from abroad will be in attendance, including some of the most prominent and efficient workers on the coast.

All persons who are interested in Bible study, and in the moral and religious questions of the day, will be welcome.

#### THE SINGLE TAX.

**A Review of the Propositions of Henry George and Senator Stanford.**

**EDWARD REPUBLICAN:** With your leave I will now review Henry George's and Senator Stanford's propositions toward easing along the car of progress.

The single tax land tax remedy proposed by Mr. George, in which he argues that the title to land should be only shown in occupancy; that the rent or tax on such land should be paid direct to the government, and that that tax or rent value would be determined by the productivity of the adaptability of that land to agriculture, manufacture, etc. With the feasibility or advisability of this theory, Nationalists have nothing to do.

#### NO REAL BENEFIT.

Admitting that land would, by this arrangement, be more sub-divided, that it would not pay to hold more than could be used with profit, and that although there would be such an arrangement by more individuals engaged in the production of agriculture, etc., yet it would not result in a real, final, final benefit to the nation as a whole.

Miss Evangelina Lardoll, the belle of Hogge's Gulch, in visiting Miss Jenkins Kickupps on Blackstone Avenue, Miss Lardoll's sire, Colonel Rawham Lardoll, is the louting merchant of Hogge's Gulch, and may be said to be the monopolist of that section, his only competitor being a measly Chinaman, who sells dried chums and China gin on the corner of the alfalfa patch. Miss Lardoll will receive on Thursday evenings.

#### MONKEY AND PARROT SOCIETY.

The most successful Monkey and Parrot society of the season, or any other season, transpired last evening at the palatial mansion of Major and Mrs. (Hyn) De la Huile on Blackstone Avenue, Mariposa Avenue, and Mariposa Street. There was ice cream, punch and cake, two-for-a-quarter cigars, besides a whole wash basin full of cards and Juan sandwiches. It was truly great. Give us another blowout soon, Major!

#### AN ENGAGEMENT.

The engagement is whispered of Miss Delia Johnson, the beautiful and accomplished daughter of the Gentleman-Colonel Starling Powers, the leaden host of the Hokey-Pokey. When we are pleased to learn that the lady in Harriett Leach Calleghan, the fascinating clerk in the corset and garter department of Hucklester, Silverstein, Swindell & Co. It is believed that the affair will come off next month. The Fair Grounds Association have promised the club to make the play ground as fine as any in the state, and now that Major Baldwin has returned from a trip to the city we will be rejoiced at once.

This for Fresno and Merced are in the lead for the championship. Bakersfield plays two games Saturday and Sunday at Merced.

#### A LARGE ATTENDANCE.

A large attendance of ladies will be at the Merced game. The club wants it to be easily understood that they are most heartily welcome to all championship games.

In practice Vincent makes some phenomenal or "police" catches. He is a

#### PRACTICE, FRIDAY AFTERNOON.

Their Enjoyable Social Party Last Evening.

OFF THE SLUGG.

Land is the freest of our wealth resources, and will be for some time to come. This freedom makes fluctuations in its values less felt by the nation at large, isolating cases of boom prices, and so on.

Majoring in baseball here is reviving. The bulletin board at Degen's is surrounded daily at 4 o'clock by scores of enthusiasts.

Considerable changes will be made at the grounds in time for the Merced game, May 12.

The home-plate will be ewe-worn, and the foul lines will be re-laid.

Mr. Peter Humphreys of Madent avenue and Mrs. Anna Astor went off together on this morning's train to sunbather for a brief interval on the picturesque banks of Stockton Slough, they having found that there was no fresh in the report that the slough had silted up.

Miss Astor will remain at home to attend to his own business and will return next fall when the rains come to dry.

He will spend the winter at Boulders Creek.

#### THE MILITARY.

Major Jack Rabitto is back again after an absence of two years in Marie ville, where he worked in the mines.

The nationalization of land is one of the last things to be considered. Decrease the ever increasing difficulties placed on the occupier and producer, and that occupation becomes a production, will, with each such reduction, become free.

Mr. Stephen Poorman's mother-in-law and her three children returned to Big Oak creek yesterday after three months to stay with the Poorman's in the Belmont addition. Mr. Poorman is rapidly convalescing and expects to be out of credit in a week or so.

#### THE MOR AND SKIN.

That delightfully reprehensible and fast society, the 11-14 Club gave another brilliant social hop and skip at the Codde Flax Hotel last evening. It was the most brilliant and successful gathering of the year.

Colonel Hinsight, we learn, proposes to make a trip to Woodland, Yolo county, after he gets through pruning his vines. He goes there for points, and when he gets back something is going to happen.

Mr. Stephen Poorman's mother-in-law and her three children returned to Big Oak creek yesterday after three months to stay with the Poorman's in the Belmont addition. Mr. Poorman is rapidly convalescing and expects to be out of credit in a week or so.

#### LATER ON.

Hallen and Hart's Company will present "Later On" at Riggs Theater next Saturday evening. Of this combination the New York World says:

"The reception accorded Hallen and Hart and their company at the Fourteenth Street Theater Monday night was of a large number of persons who attended the Speaker's desks and ornamented with beautiful bouquets of Fresno's choice flora and evergreens. During the early part of the evening these presents were entertained by the following musical selections: Duet, 'Natalie Waltzes,' Mrs. W. M. Higgins, Miss Minnie Ankeny; song, 'Last Night I Dreamed,' Mrs. C. L. Waters, Miss Anna C. Conning; 'Annie,' 'Answer,' Miss Ethel Ruth; Miss Ruthie, a solo, charmingly done; 'Last Night,' instrumental solo, 'Gretta,' Mrs. Herman Levy; song, 'One Day,' Miss Minnie Ankeny; octet, 'Face in the Mirror,' Miss Ethel Ruth. Then followed parlor games in the lobby room and dancing in the banquet hall, lasting until after 11 o'clock.

#### PROFITABLE LAND TRANSACTION.

"I made a big trade to-day," said a well-known citizen.

"Well, I owned ten lots in the Belmont addition. They are worth \$100 each. I sold them by putting them in at \$200 apiece and gave them a trade on lots of \$100 each."

"Yes," responded his buyer, "that same 10 acres who offered me yesterday at \$75,000 an acre. So Jones made a profit on his land of \$10,000, leaving you \$6000 in the hole."

#### CLARK'S CENTURY PLANT.

A. M. Clark has growing in his yard, on the corner of Calaveras and L streets, two trees that are of unusual interest to the casual observer. One is a tall, thin plant, the other an oak tree, seven or eight feet high, with a trunk six inches in diameter.

The century plant is about fifteen feet high, planted from the seed at the same time as was the century plant. It has two or three foot leaves, and the trunk is about one and a half inches in diameter.

The interior of the new store is to be finished according to Mr. Wiener's plan, and he observed that it has progressed by measurement three and one-half inches per day. The stalk usually grows from six to twelve feet above the long pointed leaves before it puts forth its blossoms.

The plant is the oldest in the city. In another part of the yard is the oak tree, now over forty feet high, planted from the seed at the same time as was the century plant.

The interior of the new store is to be finished according to Mr. Wiener's plan, and he observed that it has progressed by measurement three and one-half inches per day. The stalk usually grows from six to twelve feet above the long pointed leaves before it puts forth its blossoms.

#### BLUFFED THEM OFF.

Last Tuesday evening about 9:30 o'clock, while L. P. Timmins was returning to his home on the corner of Tulare and N streets, he was stood up by two footpads near the alley at the rear of his house and told to throw up his hands. He was so thoroughly taken by surprise that he did not do as asked, but quickly recited his self-possession, the stupid nature of his captors, and the Congressmen, and the doing away with nominating conventions, by allowing the people to nominate their officers by petition.

He would not pistol, but the bluf-footpads had the footpads had a handkerchief tied around his neck, and when he refused to give up his hands, they would not let him go.

#### A BIRTHDAY PARTY.

John, Joseph and William Martin, brothers, residing near Kingsburg, got into a dispute the other day, and William had his brothers arrested for threatening him with great bodily harm. John and Joseph were taken to the Prince of Wales, Justice Hogue, yesterday and gave bonds of \$500 each to appear for examination. The date for the examination has not yet been fixed.

#### A BIRTHDAY PARTY.

The friends of Miss Minnie, daughter of Mr. and Mrs. August Petiette, gave her a birthday last Sunday evening at the home of her parents, on the corner of Ventura and U streets. The hostess was the recipient of numerous and

handsome presents. Several hours were delightfully passed in singing and instrumental music and recitations, after which refreshments were served. Among those present were: Messes Lizard, Lutie, Annie and Carrie Knobell, Rosa and Leon Roman, Alie Hobbs, Leslie and Claude, and Edward Cox, Mrs. Moses, George, August, Henry and Ward Petiette, Henry Reynolds, J. P. G. Gleason,

FRIDAY, APRIL 25, 1861.

The prayer of the Republican party in this state is, "May the Lord preserve us from being Borked."

FARMERS, fruit-growers, and stock-raising who depend largely upon wild feed for their herds are all happy. The rain came in time to satisfy every one.

Ir Huntington told the truth when he said that the railroad was going out of politics for Heaven's sake what will become of Jeff Shannon and Birrell?

The rain will delay harvesting somewhat but will result in more grain hay in the end. It is a fine thing for newly-planted orchard and vineyard, and also for small grain upon dry land. Let it rain.

Men who will let their personal friendship or their business relations with a corporation interfere with a just discharge of official duties are not fitted for judges, jurors, nor even city trustees.

One of the leading wants now left by the intelligent citizens of Fresno is a public library, where books of reference could be consulted and desired information readily obtained upon any and all subjects.

The Supervisors ought to try and secure the paving of K street from Tulare to Fresno streets with bituminous rock. Property-owners on the west side of K street, would, no doubt, willingly assist in the good work.

Grace fruits are becoming quite popular as a confection, and their manufacture ought to be a very lucrative business in this vicinity. There is plenty of first-class fruit produced in Fresno county, and much of it is especially adapted to the canning process.

The San Bernardino Times shows a persistency in advocating Governor Waterman's nomination worthy a better cause. Pride for a local candidate appears to be the one reasonable excuse for the publishers of the Times to make such a silly show of themselves.

With such weather as we have had for three weeks past the brick-makers ought to be pretty well along with an additional supply of that very necessary building material. Buildings should not be delayed by a lack of material but such has been the case for two months past in Fresno.

Fresno wants the Republican State Convention; so does San Jose, Oakland and Sacramento. Fresno is making a determined fight, and will probably succeed. Stanislaus is for Fresno, he believes this valley is entitled to the convention, and that Fresno ought to have it.

The guns of the new cruiser *Charleston* have been successfully tested by target practice off the coast at Monterey. The vessel is now ready to meet any ship of her size and style in the world, and with her American crew the country will not be ashamed of the outcome should such an occasion arise.

During the Cleveland administration over \$65,000,000 of Government money was "borrowed out" to favorite bankers. Since the Republicans came into power about \$55,000,000 of this loaned money has been called in and applied to reducing the public debt. This policy will be pursued until the whole amount is applied in a like way.

The Republican State Central Committee will meet next week to fix upon a time and place for holding the State Convention. A lively and interesting fight is expected over the selection of a place for holding it, but the probabilities are that Fresno will be chosen. The convention will be held, most likely, in April.—Selma Enterprise.

Citizens should be very careful about dumping garbage into any of the sewer traps. It is a misdemeanor, punishable by a fine of \$25 or a term in the County Jail not exceeding 250 days to commit such an offense. It will pay to have all garbage hauled outside the city limits rather than take the chance of having such heavy penalties imposed for dumping trash into sewer openings.

SACRAMENTO hotel keepers have pledged themselves to bear a goodly portion of the expense of the State Convention if the Republicans will go there. Fresno will receive more votes on the first ballot for choice of convention city than either Sacramento, San Jose or Oakland, and it looks as though the rail center will walk away with the prize on the second or third ballot.

The lady who so kindly sent us a prohibition tract relative to that question in Iowa and Kansas, from a purely prohibition standpoint, has our thanks for the same. It had the seal of age upon it, having been issued in 1857, and a careful reading does not change or materially affect events which have happened since that time. The people of both these states have emphatically expressed themselves at the ballot-box since 1857 in favor of resubmitting the prohibition question to a vote. And there is little doubt but that high fence will be adopted when the question is again submitted to the will of the people of both Iowa and Kansas. The Republicans have always had an opinion of its own upon this, as also upon every other important question. In expressing such opinion we have always accorded to others a like privilege; however, in giving expression upon any subject we have endeavored to keep abreast of the times.

At the recent city election in Modesto 3500 votes were polled, at least 150 of which the Herald claims were fraudulent. If we estimate the population of that city by the vote cast, Modesto should have at least 3500 permanent residents. The census will be taken in June, and if the count shows a population not exceeding 2500 it will prove very clearly that the Herald was correct in its assertion in regard to the illegal votes. Modesto Democrats have made their mark, whether honestly or not the people will know on or about the 1st of May.

The Oakdale Tribune is satisfied to wait until railroad men get readying of their own accord to hold a competing newspaper in advance, requested that

## THE COMING CLASH.

The result of the recent city election in Milwaukee, or more properly speaking, the direct cause which led up to the result of that election, has been sufficient to conservative Americans to thinking in every state in the Union. At the last session of the Legislature of Wisconsin, a law was passed making the education of children compulsory. The same law also provided that no public school money should be used for keeping schools in which the studies were in any other than the American language. To this law the foreign-born population of Wisconsin very largely took exception, and the Democrats, taking advantage of this feeling and encouraged by the chance it afforded them to best the Republicans, carried the legislative bodies and made a fight against the compulsory teaching of children to read and write the common language of this country. The local Democracy of Milwaukee and other cities of Wisconsin shamed upon their party this infamy for the sake of temporary gain.

It is a well-known fact that there are sections of that state and of other states where the language of the United States is almost unknown. Communities where children have been born, reared, and educated to read, write and cipher with scarcely any knowledge of the English language. Such children are not made with American ideas and are not more fitted for the real duties of American citizenship than are other foreigners who have not yet renounced their allegiance to their mother country. They are aliens in everything except birth. They are not the kind of citizens our country has needed in the past and will probably need in the future. The tongue is the emblem of nationality, and people who speak only a foreign language are not expected to be well versed in American affairs. Their double life here, but they are European in every thing else. Under a constitution these people are entitled to live here and do business, retaining the language and customs of their mother country. But when they ask to become legally identified with the American Government they must discard their foreign ideas when they come in conflict with the institutions of the Republic. Their children should be taught to speak the mother tongue only as a necessary convenience. One language only should be taught in the primary and grammar grades of our public schools, and no money should be used in the maintenance of any school where a foreign language is taught or where the school is under the control of any religious society or church organization.

Any religious body which teaches its adherents that their first duty is to their church is an enemy to personal liberty.

The American Government guarantees personal and religious liberty to all its citizens and provides public schools and a free press as the surest safeguards against any infringement of those rights. Church influence was one of the principal sources of strength to the Democratic ticket in the late municipal elections in Wisconsin, and this fact will stir up a feeling that will cause stronger legal barriers to be thrown around the public school fund. The idea of an American flag upon every public school building is a good one, and if carried out will have a tendency to influence the rising generation to respect it. Foreign immigration has been very large but the children thus brought into our country are not familiar with the national colors of the United States. They are too frequently taught to disrespect it. The time has come when this country must take cognizance of the encroachment of its enemies upon forbidden ground, and the opportunity afforded by the agitation in Wisconsin should not be permitted to go unnoticed.

WINS Dr. Edward Thompson outlined the policy of the Young Men's Christian Association in politics on Sunday evening in his lecture on the "Necessity of a Sunday Law," he gave the association a responsibility which will cause it considerable trouble, accepting the leader's statement as correct. In regard to the coming political contest in this state the speaker said that while the association was not a political one in any sense, still they proposed to make their influence felt by writing to the legislative candidates who are nominated, they would go to the dominant party and ask its candidate to pledge himself to vote for a Sunday law. In case he would do so they would vote for him, but should he refuse, the energies of voting members of the Y. M. C. A. would be uniting to encompass his defeat.

The public at large would like to see the sentiment of the Fresno branch of the association.

The lady who so kindly sent us a pro-

hibition tract relative to that question in Iowa and Kansas, from a purely pro-

bhibition standpoint, has our thanks for

the same. It had the seal of age upon

it, having been issued in 1857, and a care-

ful reading does not change or mat-

terially affect events which have hap-

pened since that time. The people of

both Iowa and Kansas. The Republi-

cans have always had an opinion of

its own upon this, as also upon every

other important question. In expressing

such opinion we have always accorded

to others a like privilege; however, in

giving expression upon any subject we

have endeavored to keep abreast of the

times.

SAFETY-netting should be employed in the country. They

should leave the city with a determination to permanently better their condition by becoming the owner of twenty-

acre irrigated farms. The small farmer is the one independent citizen of California to day, and he will continue to be independent so long as he thoroughly tills his soil. Millionaires may live in dread of financial disaster, organized labor may keep upstrife with capital, farmers who raise wheat by the bushel, and merchants may fail, but the industrious owner of a twenty-acre irrigated farm continues on the even tenor of his way, enjoys life with all its substantial requirements and even luxuries, and finally dies a ripe old age, happy and contented even then.

TWELVE hundred new voters have registered in Fresno during the past few weeks. The majority of these voters are presumably Democrats who are getting ready for their party primaries which occur on the 10th of May. One hundred and eleven new registrations have occurred in Selma, and a good increase is everywhere noticeable in the valley portion of the county. At the last general election 1500 votes were cast in this city, but it now begins to look as though nearly double that number would be cast next fall.

BILL N.Y. IN HIS regular Sunday con-

tribution to the Examiner, says:

"Fresno is one of the handsomest cities of the Sacramento valley." As usual Bill winds up a robust attempt to tell the truth with a seven-story lie which tempts over and smashes the everlasting daylight out of his good intentions. He gets into great trouble when the editor gets into it, but it gets into the paper.

Our one single achievement of the State Department in negotiating a satisfactory extradition treaty with Great Britain, whereby American fugitives, defaulters and absconding bank cashiers are no longer beyond the reach of the law when in Canada, in importance outshines all the diplomatic performances of the late Cleveland administration combined. Blaine will leave a record behind him as Secretary of State that will mark an epoch in American history.

## THE COMING CLASH.

it not be better to organize a local company in San Francisco and build to a connection with the Atchison, Topeka and Santa Fe system of Mojave road to wall or the building that road northward? such a company could be organized and the road built if the press about the bay would give their noted support to the enterprise. The slumbering newspapers about San Francisco Bay are a multitude up in the neck of California. It would be a trifling task to the balance of the state if Erikson's tidal wave would show up even a few days behind time, with sufficient volume to drown the most loaded newspaper men in that vicinity.

CAUSE AND EFFECT.

The Fresno Republican is the only paper in our large list of exchanges that thinks Prosser's Huntington does not mean what he said in his address before railroad directors and interviewers with members of the San Francisco press. The Republican thinks, from the tone of its editorial, that every man connected with the railroad company, from Huntington down is dishonest. It may be correct in theory to believe every man dishonest till he proves himself honest, but it is not how nor is it exactly the fair way to deal with men. Generally, the man who looks upon his fellow-men as a knave or a thief is not, himself, Caesar's wife, above suspicion.—Red Bull Sentinel.

The Sentinel's exchange list must be made up principally of papers in sympathy with the railroad. Its own trucking to much connected with that corporation has been sufficient for The Republican to "place" the Sentinel on railroad matters without turning down its coal cellar. There are other papers published in California beside The Reviewer which believe that the limiting of railroads to the railroads is the best way to deal with men. Generally, the man who looks upon his fellow-men as a knave or a thief is not, himself, Caesar's wife, above suspicion.—Red Bull Sentinel.

The Sentinel's exchange list must be made up principally of papers in sympathy with the railroad. Its own trucking to much connected with that corporation has been sufficient for The Republican to "place" the Sentinel on railroad matters without turning down its coal cellar. There are other papers published in California beside The Reviewer which believe that the limiting of railroads to the railroads is the best way to deal with men. Generally, the man who looks upon his fellow-men as a knave or a thief is not, himself, Caesar's wife, above suspicion.—Red Bull Sentinel.

## WOODLAND BOOMERS.

They Come to Fresno for Points on Raisins.

DELIGHTED WITH HER FORTUNE.

"After Seeing Fresno I'm Ashamed to Go Back."

IRRIGATION CREATED IT ALL.

Woodland's Representatives the Guests of the Queen City of the Plains.

The Woodland excursionists arrived on Tuesday afternoon's train and were received at the depot by a reception committee of about one thousand Fresnoites. The railroad reservation back of the depot was blocked with carriages, and when the engine stopped at the track to take its after-cock drink the platform was jammed with people eager to catch a glimpse of their Yolo county friends.

The excursionists were a scatred ribbon bearing in back letters the word "Wood," and the members had no difficulty in recognizing the visitors.

They were taken in hand by the committee and escorted to the hotels, the Grand Central receiving the majority of the visitors. The party was in charge of Ralph Ellis, business manager of that enterprising journal, the Woodland Mail. Arthur C. Huston, the talented head reporter of the Mail, was also on board as special correspondent to write up the doings of the tourists and the impressions made upon them by the fruitful vineyards and orchards and the glorious climate of sunny Fresno.

THE VISITORS.

The following is a complete list of the excursionists who arrived:

Mr. and Mrs. J. G. Hollingsworth, Mr. and Mrs. L. B. Holmes, Mr. and Mrs. H. F. Marion, Mr. and Mrs. S. O. Parker, Miss Bettie Laugenour, Miss Lucy Laugenour, Miss May Harlan, Mrs. J. H. Harlan, Mrs. J. W. Freeman, Mrs. L. Walker, Mrs. P. W. Fisher, T. J. jeans, Emil Krellenberg, W. A. Dose, Walter Huston, C. S. Frost, A. C. Riggs, A. Beck, Mrs. George G. Armstrong, Rudolph Keel, Fred Eastham, W. H. Lawson, J. L. Patterson, Sam Hogan, George D. Fiske, Jr., Hon. E. Lowe, Joseph Keeler, R. H. Parker, L. V. Vachere, Wm. Parsons, Jr., E. Eastham, Rev. Henry Shadie, Mr. and Mrs. J. F. Hink, Mr. and Mrs. George H. Jackson, Mr. and Mrs. J. F. Duncan, Sheriff and Mrs. N. M. Weaver, Mr. and Mrs. W. G. Hunt, Mr. and Mrs. L. D. Stephens, Mr. and Mrs. J. H. Wright, Mr. and Mrs. William Geppel, Mr. and Mrs. Robert Heggen, Mr. and Mrs. Ralph Ellis, Mrs. J. J. McConnell, Mrs. F. S. Freeman, Mrs. Eliza Woods, Mrs. Mat Miller, Rev. L. B. Williams, William Hoffman, Dr. J. W. Brown, Dr. J. L. Simpson, District Attorney Ed. E. Taylor, W. H. Carlson, Elias Swartz, W. M. Coward, Tenten Gitz, H. A. McGriff, George Jacobs, W. S. Huston, J. G. Allen, S. T. Mowler, A. L. Moosmeyer, Arthur Huston, Mail reporter.

The visitors spent the evening very pleasantly in strolling around town and examining the beautiful brief buildings erected last year in the business center of the city. The Carlton Opera-house, which is up a story and a half, attracted the particular attention of the excursionists.

WHO THEY ARE.

The following are portraits and brief sketches of the more prominent members of the party:

**DR. GEORGE H. JACKSON.**  
The Woodland Business Men's Association, of which Dr. George H. Jackson is the present President, was organized May 6, 1889, with Dr. Thomas Hess President, L. Walker Secretary, and C. F. Thomas Treasurer. The membership of the society is composed of energetic and live-minded men of community, and has survived the period of excitement. It is now a permanent institution, and has vindicated its right to an existence by its purpose and by the beneficial influence it is exerting in the town. Dr. Jackson is a progressive citizen and has invested all the capital at his command in the business property of Woodland and in farming lands adjacent. Therefore, having shown the courage of one who is not afraid to identify himself with the interests, the welfare and the hopes of the locality, he is fitting that he should be the head of so important and useful a society as the Woodland Business Men's Association.

Dr. Jackson is a native of Kentucky, and is now about 46 years of age. He first moved to Missouri, where he died in 1854, leaving George to care for him. After a spell in the mercantile firm as clerk he started for California in 1861 with his brother-in-law, Dr. Allen. It was about this time that Mr. Jackson settled on a determination to enter the profession of medicine, and amidst discouragements that would have disheartened the ordinary young man of the present day.

Dr. Jackson is serving his sixth year as County Physician, and has filled the office of Town Trustee for an aggregate term of ten years.

**S. O. BARKER.**  
Mr. Hunt, who is known generally throughout the country as the largest wheat buyer and shaper in this part of the state, was born in North Carolina in 1827. When a boy of 15 years his father moved to Missouri. From that state he came to California, brother-in-law, Dr. Allen. He spent a year or so in Hangtown, now known as Placerville, and in 1851 moved to this country, settling on Cache creek, and acquiring, in course of time, a handsome estate, consisting of several or eight hundred acres of fine land. He is now in partnership with his son-in-law, Mr. Lark Stephens, proprietor of all the warehouse and grain storage facilities in Woodland.

Mr. Hunt was married in 1853 to Miss Jennie G. Day of South Bend Ind. Their two daughters are Mrs. Larry Stephen of Woodland and Mrs. Edgar J. DePue of Oakland. The only son, Alvis, is manager of the Hunt & Stephens warehouses.

**W. G. HUNT.**  
Mr. Hunt, who is known generally throughout the country as the largest wheat buyer and shaper in this part of the state, was born in North Carolina in 1827. When a boy of 15 years his father moved to Missouri. From that state he came to California, brother-in-law, Dr. Allen. He spent a year or so in Hangtown, now known as Placerville, and in 1851 moved to this country, settling on Cache creek, and acquiring, in course of time, a handsome estate, consisting of several or eight hundred acres of fine land. He is now in partnership with his son-in-law, Mr. Lark Stephens, proprietor of all the warehouse and grain storage facilities in Woodland.

Mr. Hunt was married in 1853 to Miss Jennie G. Day of South Bend Ind. Their two daughters are Mrs. Larry Stephen of Woodland and Mrs. Edgar J. DePue of Oakland. The only son, Alvis, is manager of the Hunt & Stephens warehouses.

**W. M. COWARD.**  
Real estate agent, Justice, Woodland.

**J. W. BROWN.**

This well-known and early resident of Yolo county was born in 1824 in Virginia. When quite young he moved to Indiana and thence to Illinois. He left that state for California in 1850, and settled soon after his arrival in this country. He engaged in farming, bought land, and grew rich. Mr. Brown moved to Woodland about seven years ago. It was not long before he was pressed into town politics. He made a bid for Town trustee, and was elected by an undoubted majority of 100 votes. For two years he was president of the Board. Three years ago he was the unanimous nominee of the Republican party for Assemblyman. He made a successful campaign for the office, and made a

clean and honorable record as Representative. He was renominated and re-elected to the same office last year. His term expires next January.

**MOX. L. A. ADAMS.**

Was born in 1828 in Miami county, Ohio. On May 18, 1858 he started for California and settled in this county, near Knights Landing. His property, and his estate has gradually increased until he now pays taxes on about 1000 acres of rich land.

Three years ago Mr. Adams was renominated by the Democrats of this county for Assemblyman. He made a successful campaign for the office, and made a

clean and honorable record as Representative. He was renominated and re-elected to the same office last year. His term expires next January.

**A. CLARK AND S. ST. CLAIR.**

Ames Clark and S. St. Clair, Amer-

ican by birth and Ethiopians by pedigree, were arrested yesterday for keeping a disorderly house. They keep the saloon in Mr. Lindwick's basement from him last week.

**A STILLBORN INFANT.**

The Street Superintendent and his as-

sistants saw a strange object last Satu-

day in the mouth of the sewer on Stan-

islaus street, between J and K streets.

**A NOTORIOUS SALOON.**

D. Clark and S. St. Clair, Amer-

ican by birth and Ethiopians by pedigree,

were arrested yesterday for keeping a disorderly house. They keep the saloon in Mr. Lindwick's basement from him last week.

**STATE HORTICULTURAL SOCIETY.**

The April meeting of the State Horti-

culture Society will be held at the meet-

ing room of the State Board of Trade, 605 Market street, San Francisco, at 12:30 p. m. on

**FRENO ANARCHIST.—WHAT IS NATIONALISM?**

**FRENO NATIONALIST.—READ BELLAMY.**

**FRENO NATIONALIST.—READ NATURE.**

**FRENO POLICEMAN.—MOOF ON IT.**

**REASON FOR VAGS.** Vy don't you go to work like me?

**STATE HORTICULTURAL SOCIETY.**

The April meeting of the State Horti-

culture Society will be held at the meet-

ing room of the State Board of Trade, 605 Market street, San Francisco, at 12:30 p. m. on

**THE PROBLEM SOLVED.**

**THE GREAT FIRE SALE.**

"I don't like this bituminous sidewalk in front of the depot here," remarked a citizen yesterday to A. H. Tumbrok.

"When the sun is hot it gets warm, and a man leaves the track of his foot in it."

"Best thing in the world to burn Fresno," said Tumbrok.

"Why?"

"Because when a tenderfoot steps on it he gets stuck on the town."

**TUESDAY'S FIRE.**

Two one-story frame dwellings on G street, between Merced and Tuolumne streets, were destroyed by fire at half-past 12 o'clock yesterday morning. The buildings were vacant and were the property of George E. Church. It is believed that the fire was caused by tramps.

Building set at half-chimney in the Bradley block at half-past 11 o'clock yesterday morning caused a false alarm

of fire.

**YESTERDAY'S FIRE.**

At half-past 12 o'clock yesterday morning a building on G street, between Merced and Tuolumne streets, was destroyed by fire at half-past 12 o'clock yesterday morning. The buildings were vacant and were the property of George E. Church. It is believed that the fire was caused by tramps.

The property was insured for \$1400.

Building set at half-chimney in the Bradley block at half-past 11 o'clock yesterday morning caused a false alarm

of fire.

**GENERAL JOHN A. LOGAN.**

**EDITOR RUMMEL:** Please publish

date of General John A. Logan's death;

also the date of the Grand Army reunion in San Francisco, at which Logan was present.

**COLONY STAR-CHIEF.**

John Alexander Logan was born in Jackson county, Ill., February 9, 1826.

Died at his home in Washington, Sunday, December 20, 1886. Attended the G. A. R. encampment at San Francisco, August, 1886.—Ed.

**NOT INSANE.**

John Kerley, who was arrested at the Southern Pacific depot by Officer Root on Saturday on a charge of being insane, was examined by Superior Judge Harris and Dr. Maupin and Leach yesterday and discharged. Kerley had threatened to kill himself and had been drinking heavily for several days. It was subsequently ascertained that Kerley was an inmate of the Insane Asylum at Stockton some months ago.

**YESTERDAY'S FIRE.**

Two one-story frame dwellings on G street, between Merced and Tuolumne streets, were destroyed by fire at half-past 12 o'clock yesterday morning. The buildings were vacant and were the property of George E. Church. It is believed that the fire was caused by tramps.

# The Fresno Republican

FRIDAY, APRIL 25, 1880.

J. M. Danap arrived last evening from Modesto.

Ray White came from Bakersfield yesterday.

Mrs. Ella M. Henry is visiting relatives in San Francisco.

Otto Froelich returned to his home in San Francisco yesterday.

H. C. Eggers went to San Francisco yesterday on a short business trip.

Mrs. Girard Gibson of Stockton is a guest of Mrs. S. J. Hinds this week.

Mrs. H. B. Condon of Tulare City is a guest of Mrs. J. F. McDonald of this city.

W. H. Adams paid Recorder Prince \$10 yesterday as a fine for disturbing the peace.

Mr. and Mrs. Ed Williams of Modesto are the guests of Mr. and Mrs. E. W. Smurz.

Mrs. A. T. McDonough left on the evening train yesterday for her home in Oakland.

Miss Kate Davis, formerly of this city, but now of San Francisco, is visiting Miss Sue Day.

Mrs. J. C. Connor has returned from the mountains, and has brought with her some fine sketches.

William Dean and Mrs. J. F. Tucker of Modesto are guests of Mr. and Mrs. S. N. Struble this week.

J. Blasen of Danap, Cal., yesterday on a visit to his former home and relatives.

J. W. Miller of Mono Lake county, N. Y., is visiting Fresno and examining land for the purpose of investing.

C. P. Markeil paid a fine of \$5 in Justice Hague's Court yesterday for littering on O. Oliver last Monday night.

Thomas Toyer, a capitalist of Alameda, is spending the week in Fresno looking after his real estate interests.

E. Jacobs is plaintiff in a suit to recover \$85.25 on a promissory note by G. Blankenbach in Tulare on November 5, 1888.

An acrodeon and a policeman are among the appearances which have recently been added to the Saturday program.

J. J. Bettman of Oakland, who has been visiting his daughter, Mrs. A. J. Wiener, for several weeks, returned to his home yesterday.

The first brick for the construction of the new black block on the corner of Tuolumne and 1st streets was yesterday hauled on the ground.

R. H. Austin, accompanied by his family, started for Salt Lake City yesterday, where he intends to engage in business and make that city his future home.

Mrs. J. H. Rhodes, wife of the farmer manager of the Western Union Telegraph Company in this city, is visiting Fresno, the guest of Mr. and Mrs. H. L. Rhodes.

Recorder Prince yesterday sentenced Belle Wilcox to thirty days imprisonment on a charge of vagrancy. The sentence will be withheld during her good behavior.

The annual meeting of Vina Parlor, Masonic Daughters, will be held in their parlor this evening, on the corner of Mariposa and 1st streets. Visiting members of the order are invited.

A. V. Liebny and others have brought suit to enjoin the Fresno Publishing Company from claiming any right to the possession of certain maps, indexes, books, office furniture, etc., now used by the plaintiff.

J. W. Dumas, Grand Marshal for the Odd Fellows parade next Saturday, has issued a general order requiring all organizations intending to parade to report to him at the intersection of I and Tuolumne streets at 7.30 a. m. next Saturday.

The members of the Fresno Grays band refused to accept the subscription raised last Wednesday evening to serenade the excursionists, stating that they were as anxious to entertain the guests as were the auxiliaries.

The California Savings and Loan Society has brought suit against R. Garvin to foreclose a \$300 mortgage on the northwest quarter of section 10, township 17 south, range 10 east, and the east half of the northwest quarter of section 9, township 17 south, range 10 east.

N. C. Caldwell, the attorney, has a charge of battery and one of disturbing the peace pending against him in Justice Hague's Court. The complaint is William Peterson, a boxer, until recently in the employ of Mr. David S. Terry.

Harry Watkins, the "Cowboy" preacher, fills an engagement to lecture in Stockton to-night, but will return to speak in Y. M. C. A. Hall in Fresno on Friday and Saturday nights of this week, also Sunday afternoon, at 3.30 o'clock. Everybody cordially invited to attend.

The party to be given by the 89-90 Social Club at the Bogies Hotel this evening will be the last until the warm weather is over. The excellent program heretofore carried out by the club will insure for it an unusually large attendance and a pleasant time.

Professor E. P. Daniels has been requested to examine some of the positions taken by Mr. Edward Thompson last Sunday on the Sunday law, and has consented to do so at the Adventist Church next Sunday evening. Everybody invited to attend.

Jack Galley of Nelson, Neb., came to Fresno some weeks ago on a visit to his old friend, M. L. Schermerhorn. He came so pleased with the country here a few days ago he invited me to stay in real estate. Yesterday he started for his home, and next fall he expects to return with his family to settle permanently.

Mrs. James Hanau and daughter arrived at the old Whiteman Inn from Germany, Isle of Wight, England. She and her husband are the guests of E. W. Smurz in Belmont addition. Mrs. Hanau, since leaving Fresno, has demonstrated that she has the qualifications of an actress of no mean ability.

Party to Miss Chalmers.

Mrs. James E. Brown gave a delightful party to Miss Anna Chalmers of Stockton at her home on Tuolumne street, near 1st street, last evening. Many of the young society folks were present and were entertained with parlor games until midnight, when supper was served.

GATHAR CURED, health and sweet breath secured by Shiloh's Catapyl Remedy. Price 50 cents. Nasal Inhaler. 25cts.

## COUNTY POLITICS.

The Smooth Workings of the Democratic Machine.

### METHODS OF SOME CANDIDATES.

A Saloon Fight Is Not Believed to Be the Proper Caper for Certain Exalted Offices.

Politics and more politics! The air of Fresno is full of politics when it isn't raining, and when it is raining it rains candidates.

The Crawford plan, under which Democratic candidates will be elected next month, and in which the veterans will bid directly for the persons whom he wishes to be the nominees of the party, calls for an enormous quantity of personal solicitation. The candidates must get around and interview the voters individually, in the first place to secure the promise of their vote, and in the second place to urge the voter to go to the polls. It is often more difficult to get a man to go to the polls than it is to get his promise.

### A LITTLE MACHINERY.

While the Crawford plan appears on its face to be of the people, by the people and for the people, it is a hollow fraud and deception, for the Democratic bosses would never have allowed the County Committee to adopt that plan unless there were some wires concealed under the platform. A Democratic primary would be a howling wilderness of despair if there was not some of the old-time machinery about, because if there is anything a Stewart-Borbon loves it is a nice network of political influences and connections, and to bring his master hand upon. The more difficult the combination, the more a "boss" in the Claver puzzle it proves to be the better pleased is the old warhorse, for the old politician delights in intricate connivance, and every candidate has a sneaking hope that he is going to be the lucky pig that will fatten in the clover of public patronage.

WHERE THE MONEY GOES.

The bulk of the candidates' money is being spent in the saloons and among the political workers. Those latter do not labor for love or patriotism. A distinguished statesman remarked to a Republican reporter yesterday: "We're out for do stuff," which allegorical language intended to convey the idea that they work on a coin basis.

S. A. Holmes, J. B. Campbell and E. D. Edwards are making a hot triangular fight for the Supreme Judgeship. Holmes enjoys the reputation of being a "still worker," and is said to lay the bulk of his weight in the districts outside of the city. A wag said yesterday that Holmes was once a still worker, that he would never be heard from, but this is probably a cruel and unfeeling slander.

A GREAT MYSTERY.

"I think that Edwards makes a great mistake in his method of soliciting votes or making himself solid," said a Democrat to a Democratic reporter yesterday.

In what regard?" inquired the reporter.

"I don't think," was the reply, "that it is compatible with the exalted dignity that attaches to the office of Superior Judge for the candidate aspiring to that position to make it a practice of going about from saloon to saloon and spending money over the bar. You know that saloon associations are never of the best. The hangars on these places are, for the most part, gamblers, hooligans and men of not altogether spotless reputations. Suppose that a Judge had to pass sentence on a man who was a criminal with whom he had been hanging out in saloons last month—wouldn't that be a peculiar combination? If he imposed a very light sentence people would say that the Court was pandering to the criminal element in order to preserve its political influence?"

"Do I understand you to say," asked the reporter, "that Mr. Edwards is making a saloon canvass?"

"You can understand me to say just what I have said. I know that since he announced his candidacy he has been in several saloons both in the day time and in the night time, treating men who had voted."

JUDGE CAMPBELL'S CHANCES.

"What do you think of Judge Campbell's chances for the nomination?" asked the reporter.

"He has the best organized fight. Campbell is a shrewd man and he is wealthy, and he or his friends have secured some of the best political workers in the county. I have received the tip that he has the backing of Jess Heskell and Grady, P. O., and Dan's is working hard and too far for him, and he has a score of others. Of course, they all say that Campbell hasn't earned his stripes—they aren't working for love, for I know that all these fellows are out for the stuff."

THE STATE SENATORSHIP.

A strong effort was made a little while ago by Judge W. W. Phillips of the Farmers' Bank to enter the contest for the State Senatorship, but up to the present time he has steadfastly refused to sacrifice himself for the good of the party. Phillips has a long head and is an able financier and is thoroughly conversant with the rule of arithmetic progression. It is shrewdly surmised that he has figured on the alarming reduction of the Democratic majority in this county at the last election from 600 to 300, and has used as a factor the largely increased Republican immigration since then. The largely increased subscription list of the DAILY HERALD during the past year is another highly important factor that may have a weighty bearing on the result of the next election.

GOUGHES IN AMERICA.

Up to the time of the announcement of George E. Church as a candidate G. G. Goucher declined to say whether he would be a candidate himself, but on the very same day on which Mr. Church was announced Mr. Goucher came out of ambush and crossed swords with him. It is believed that Goucher has the support of the machine and of the party, and of certain powerful corporations, and that is no small matter in a primary election contest.

ACCIDENTS OF THE PEACE.

Dante R. Prince and W. D. Crockett appear to have the inside track with the manipulators for the nomination for Justice of the Peace. Prince's friends claim the support of the Native Sons of the Golden West, all of whom are young and active workers.

Frank Lansing and J. B. Campbell, Jr., are making a quiet fight for the same office. Lansing will have the support of a large number of Stockton friends and he is also well acquainted with the members of several secret orders.

J. J. King, otherwise known as old Ned King, Dr. Spangler, J. M. Johnson and Colonel T. C. Appleby are making an active canvass for the Public Administration, with honors easy.

The fight for the District Attorneyship is said to be close between E. J. Griffith, the silver tongued, and W. D. Tupper. Their fight is the quietest of the quietest, but it is more intense on that account.

I. N. Hyde will give B. A. Hawking a run for the County Superintendent of Schools. Hyde knows a thing or two about politics, and his friends are confident of success.

Hold for Arson and Burglary.

R. D. Frederick was held to answer before the Superior Court by Justice of

the Peace Hough yesterday for arson and burglary. He is accused of having set fire to Henry Paro's livery in Waller's Colony and of having stolen two shot-guns from the building. His bonds were fixed at \$2,500 on the charge of arson, and at \$100 on the charge of burglary. He was remanded to the custody of the Sheriff.

### BALL CRACKS.

The Latest Gossip Regarding the Fresno County Diamond.

Ever since the visit of the Los Angeles Club, the home boys have been busy preparing for the fight for the Central California championship. Visalia opens here to-morrow, and they will receive a red-hot welcome. Visalia has always put up first-class ball here in the past, and will doubtless do so again.

But Fresno will present a different club tomorrow. The outfit will be somewhat reconstructed and one or two changes will be made in the field. They cannot but work to advantage.

It must be remembered that the games with Los Angeles should be cleared against the home club.

The boys were, however, out-elated, but these games had a great tendency to develop and improve the fielding and hitting of the club.

Cullen, the oldtime catcher, will remain in Fresno, and Vincent, who, for two seasons, played with San Diego, will be placed on reserve base. Chamberlain, a local player of considerable ability, will play first base. Manager Young taking the field.

### FREE ADVICE.

In conversation with that gentleman he said to a Livermore reporter:

"I have been given considerable advice as to how to play the game and whom to sign, etc., but those very ones, who were the loudest in their criticism, are doubtless swindling to subscribe for the support of a stronger club.

Let them put up and talk that can beat us. Los Angeles will be only another of three or four days."

On the whole, I think our club has done very well. So far not a dollar has been collected for the benefit of the club, and we have no debts. But now that we have Cullen and Vincent, both of whom depend on baseball for a living, the subscription list must go around.

### LADES FREE.

"We never intended to charge ladies during the season, the few asked was only for the Los Angeles games. Ladies are always welcome to our games. The Visalia game will be called at 2 o'clock."

### ROUTES.

"Los Angeles will easily play at Merced to-day or to-morrow.

Visalia was defeated 14 to 6 by the Los Angeles, but after defeating Bakersfield 12 to 5, they were in turn defeated by Bakersfield 7 to 4.

Vincent, the San Diego man, is a hard left-handed batter.

Collier will be missed by Bakersfield.

The boys went out at practice Wednesday and Thursday, and all will report at the Fairgrounds to-day. They will be put through good hard work.

We must get even at Visalia's expense.

### A DIFFERENT SON.

Seventeen-Year-Old Dan Brown supports his Mother and Sister.

Daniel Brown, a seventeen-year-old boy, drove a light cart over the line of hose at the Bradley block fire the other day, and was arrested on complaint of Chief Engineer Higgins. He pleaded guilty in Recorder Price's Court yesterday to a charge of violating a city ordinance. He said that he drove over the hose twice, but that he did not do it intentionally, and in fact he did not believe that he was violating any law. He promised faithfully not to commit a like offence and on this showing the Recorder imposed a fine of only \$5. He allowed Brown and yesterday morning to get the money, and when the Recorder made his appearance Brown came up smiling with the \$5.

"I raised it, Judge," he remarked, "but it was hard work to do it. You see I have to work at odd jobs here and there to support my mother and sister. My mother is 63 years old and my sister is 4 years old, and I keep my bus and takes up all my time to make a living.

If this is the case, I could be punished faithfully not to commit a like offence and on this showing the Recorder imposed a fine of only \$5. He allowed Brown and yesterday morning to get the money, and when the Recorder made his appearance Brown came up smiling with the \$5.

"I raised it, Judge," he remarked,

"but it was hard work to do it. You see I have to work at odd jobs here and there to support my mother and sister. My mother is 63 years old and my sister is 4 years old, and I keep my bus and takes up all my time to make a living.

# The Fresno Republican

## MONEY AND INTEREST

PUBLISHED EVERY  
FRIDAY AFTERNOON

**Short & Shanklin.**

A Nationalist Who Wants

Money for Nothing.

A FRESCO ANARCHISTS' OPINION.

FRIDAY, APRIL 25, 1884.

He Says That Interest is the Price

Paid for the Profitable Use of a

Valuable Article.

EASTERN REPUBLICAN: The following

extracts are made from a paper read

recently at a meeting of the Fresno Na-

tionalist Club by K. Leinhart. I took

copious notes of his remarks for the pur-

pose of showing how impracticable these

State Societies are, who are now

masquerading under the guise of Na-

tionalists. The statements and inferences of

Mr. Leinhart will no more bear the light

of investigation than will the state-

ment made by another Nationalist in the

Budget that Herbert Spencer, the greatest

of living or dead philosophers, is a

Nationalist. The fact is that Spencer is

an Anarchist or individualist, and only a

few years ago wrote an essay, entitled

"The Coming Slavery," in which he de-

molished the whole edifice structure of

State Socialism with one sweep of his

logical broom. Spencer teaches that

water will run up hill and that the Na-

tionalists propose to do the same and bar-

bar the hills of the world against the

bodies of the dead uniting.

But here is Mr. Leinhart's argument:

MORAL AND MATERIAL.

"Kellom says: 'Money is the legal

standard of value by which the value of

all articles for sale must be determined.'

The rate of interest fixes the value of

money."

"Now, note closely what importance

the rate of interest bears to the amount

of produce labor must give for one dollar.

Labor produces value; money

measures it, but interest determines the

value of the measure. When interest is 6

per cent a farm or house yielding \$600 a

year clear profit, is worth \$10,000.

If interest rises to 12 per cent, it is

equivalent to a fall in value of 100 per

cent. The measure is double what it was

before. The place that before paid

\$600 a year will now pay the owner \$600

plus 12 per cent, or \$672.

"For \$600 at 12 per cent is \$600, or in

other words, \$10,000 that will buy one

farm when interest is 6 per cent will buy

two farms when interest is 12 per cent.

WAVES BREAKING.

While it increases the producer's bur-

den daily till his labor disappears,

his tribute to money lenders has in-

creased manifold, while his debts re-

main the same and become a double

burden, from which it is impossible to

escape, for like an avalanche, interest

increases with a velocity that is over-

whelming.

This afternoon Dr. Thomson will speak

at 8 p.m. at 3rd and 2nd Street on "The

Objectives of the Sunday Law."

On Saturday night at 7:30 at the Congre-

gational Church he will deliver his closing

lecture on "The Sunday Law a Blessing

to Every Son of God."

compound interest, but the borrower is not the loser. If A without money can earn nothing, but with money can invest \$10,000 and clear 70 per cent profit on every year, he will find it a good business proposition to pay B 10 per cent for the use of the money and pocket the remaining 10 per cent. Nobody is obliged to borrow money at a high rate of interest. Money has become a commodity like flour and sugar, and the use of it has a value that the user is willing to pay for.

I hope you will excuse me for thus intruding on your space, but as I am the only American in Fresno and therefore the under dog in the fight, I know that the Reviewers will give me a chance.

Fresno, April 18, 1884.

A SUNDAY LAW.

Dr. Edward Thomson says it is right and necessary.

He is Secretary for California of the American Sabbath Union, an association whose headquarters are at 23 Park Row, New York City, delivered a lecture last night in this city on the subject, "Why the Christian World Keeps Sunday Instead of Saturday." The society which he represents seeks to protect the Sunday of the nation as a day of rest for every man under the Government, and has come to this State to make a campaign for the re-enactment of a Sunday law by the Legislature of California.

The following is a synopsis of his lecture: The Sabbath law consists of two parts, positive and moral; the latter liable to change. The essential feature is the rest day in each week. To secure its benefits to a nation or community there must be uniformity. Change of date for any good reason does not alter the substance of the institution.

Rev. Horatio Stebbins, through merit of years of faithful service, has earned the distinction of being the Captain of the Gate of the Unitarian Church in California. He is a man of extensive learning, and although he has been a student ever since he left college, he believes that he has not yet learned all that is worth the learning. But those who know him best say that he knows a good deal more than the man who left college under the half-bakedness of his teacher.

The attack is, like so many others, a tissue of falsehood and misrepresentation, and there is nothing that the persons involved are perfectly true. Their testimonies have been, especially in the last two cases, repeatedly and publicly given in San Francisco and Oakland before large audiences, as publicly advertised meetings, when scores and hundreds of others have testified at the same time to their feelings of many other individuals.

In the pamphlet entitled "American First Fruits," which I send you herewith, you have the stenographic reports of three persons who have testified publicly to their healing by the Lord Jesus Christ, through my agency. There are, first, the case of Miss Katie Bradley, a deaf mute; second, of Miss Annie Burkhardt, restored to sight after fourteen years' blindness of the left eye; and third, Mrs. Delia King, who was healed of cancer in the tongue.

Their testimonies have been, especially in the last two cases, repeatedly and publicly given in San Francisco and Oakland before large audiences, as publicly advertised meetings, when scores and hundreds of others have testified at the same time to their feelings of many other individuals.

In the pamphlet entitled "American First Fruits," which I send you herewith, you have the stenographic reports of three persons who have testified publicly to their healing by the Lord Jesus Christ, through my agency. There are, first, the case of Miss Katie Bradley, a deaf mute; second, of Miss Annie Burkhardt, restored to sight after fourteen years' blindness of the left eye; and third, Mrs. Delia King, who was healed of cancer in the tongue.

The attack is, like so many others, a tissue of falsehood and misrepresentation, and there is nothing that the persons involved are perfectly true. Their testimonies have been, especially in the last two cases, repeatedly and publicly given in San Francisco and Oakland before large audiences, as publicly advertised meetings, when scores and hundreds of others have testified at the same time to their feelings of many other individuals.
